

Birthdays

Home Learning Challenge

Draw or paint a birthday card to send to someone!

Talk about your child's birthday – when is it? What month is it? What date is it? How old will they be on their next birthday?

There are 8 birthday cupcakes on a plate. If we eat 2, how many would be left? You could draw a picture to help you work out the answer!

Look at a calendar and mark on birthdays of friends and family.

PARTY!

Practise writing cards and invitations. Encourage your child to write their name into birthday cards for friends and family.

Make some cakes for family or friends. Encourage your child to help measure and weigh ingredients, mix ingredients together and decorate the finished cake. Maybe they could count candles onto the cake for a birthday party!
